**Standard material**

**DUROCOAT® MATERIAL**

—————

To meet the ever growing needs of our customers, we constantly improve our products and technologies. We look for cutting-edge solutions and highest quality materials that will face the demands of everyday life with ease. As a result, we have created a novel material that combines plasticity and durability. A material that can be easily shaped, yet remains shock-resistant. A material with a thicker coating, that allows to create beautiful items and preserve their quality for decades.

35%

35 per cent more durability

Shock-resistant

Ultra hygienic

Easy cleansing

Perfect smoothness

UV-resistant

Heat shock-resistant

Fully deaerated

Warm feel surface

Wide color palette

Scratch-resistant

Available for custom-trimming

Stain resistant

Recoverable

*35 per cent more resistant  
to accidental damage*

“ Thanks to its unique technological characteristics, the **DUROCOAT® MATERIAL** demonstrates a 35 per cent increase in durability than comparable materials. The source of its strength lies in the fact, that perfect balance between hardness and flexibility has been achieved. This unique feature preserves the material from cracking, which is a common ailment of materials with increased shock-resistance. ”

## *Improved scratch-resistance in contact with sharp objects*

“ The **DUROCOAT® MATERIAL** is characterized by an increased scratch-resistance. The surface of the material is hardened and it's tight and dense coating protects the surface from unwanted contact with sharp objects. The surface remains intact despite exposure to shock. ”

## *Improved scratch-resistance in everyday use*

“ Thanks to its thick and dense layering, the **DUROCOAT® MATERIAL** demonstrates an improved scratch-resistance compared to standard materials.

The surface of the product is protected.

The surface of the product remains smooth and intact as in the day of purchase. ”

## *Fully deaerated*

“ The **DUROCOAT® MATERIAL** is characterized by a fully deaerated, uniform structure. This means, that all of the layers share identical density and durability. The surface of the material is flawless, no matter the depth and width of the layer. ”

## *Guaranteed to retain its gloss*

“ The truly unique characteristics of the **DUROCOAT® MATERIAL** make cleansing and general maintenance of Marmorin products easy and undemanding. Constant contact with water, cosmetics and chemical agents will not deteriorate its perfect gloss. Our products are guaranteed to retain their shine long after the date of purchase. ”

## *Ultra hygienic*

“ The perfectly smooth surface of the **DUROCOAT® MATERIAL** guarantees a minimal porosity level. This guarantees that our products are ultra hygienic and have a soft, gentle feel. A perfectly smooth surface is microbiologically safe and leaves no space for dirt and filth to accumulate. It's easy to cleanse and maintain in good condition. ”
